

Jane Carter Solution: The Best Curl Defining Cream

Posted by *Diane Da Costa* on Nov 10, 2010

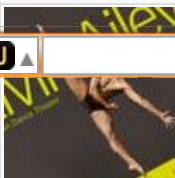

Curly girls, have you tried every curl enhancing cream on the market and are still unsatisfied? I can definitely identify and have tried them all, also. I like some curl enhancing products much better than other products. But, I finally found, "The Best" Curl Definer to hit the curly product market this year. **Jane Carter Solutions Curl Defining Cream** truly combines hold, moisturizers and built-in shine! Founder and creator, **Jane Carter**, took her time to develop this luxurious, hydrating, shea butter, moisture-filled, **Curl Defining Cream**. And it was well worth the wait. It's packed with natural botanical, herbs, vitamins and essential oils like, aloe vera, myrrh, camphor, chamomile, rosemary, vitamin E and jojoba oil.

Curl Defining Cream, instantly moisturizes the hair, while creating a soft, yet defined hold to wavy curly and very curly hair. A little goes a long, long way and it's designed with a neat and easy pump. If you really want to stretch

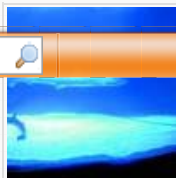

your curls and also want a firm hold, simply apply *Jane Carter Solution Wrap and Roll Foam* first, then apply *Curl Defining Cream* to achieve the ultimate curly look. Refresh your hair daily with *Jane Carter Solution Revitalizing Leave-In-Conditioner* to reactivate your curls. **Jane Carter Solution Curl Defining Cream** (\$34.00/16 oz) is available at WholeFood Stores, Fine Salons & www.janecartersolution.com.
